Community Cohesion Policy

Rationale

Community cohesion lies at the heart of what makes a strong and safe community. It should be delivered locally through creating strong networks, based on principles of trust, and respect for local diversity, and nurturing a sense of belonging and confidence in local people.

Our Vision

We recognise and celebrate diversity within our catchment area and welcome the contributions which different groups and individuals make to the community. We have a commitment to build and promote community cohesion within the school and wider community. Community cohesion incorporates and goes beyond the concept of race equality and social inclusion.

A cohesive community is one where:

- there is a common vision and a sense of belonging for all communities
- the diversity of people's different backgrounds and circumstances are appreciated and positively valued
- those from different backgrounds have similar life opportunities
- strong and positive relationships are being developed between people from different backgrounds in the workplace, in schools and within neighbourhoods

The School provides education for all, acknowledging that the society within which we live is enriched by diversity. We strive to ensure that the culture and ethos of the school reflects the diversity of all members of the school community, where everyone is equally valued and treats one another with respect and fairness. Pupils are provided with the opportunity to experience, understand and celebrate diversity. We will work towards eliminating all discrimination, on the grounds of race, gender, gender reassignment, disability, sexuality (including sexual orientation), age, religion and belief. We believe that all pupils, employees, stakeholders and members of our local and global community should be treated with dignity and respect at all times and we will not tolerate bullying, harassment or victimisation of any groups or individuals.

Our Values

- Diversity is a strength; having many different groups, cultures, and faiths in our society makes us stronger.

- We work for greater respect and equality of opportunity between different groups, cultures, faiths and ages in our society.
- The different groups, cultures, faiths and ages in our society benefit from meeting each other, listening to one another, and getting to understand each other more.
- We must all work to overcome disadvantage as it is a major barrier between communities, especially where it is experienced more by one group than another.
- Racism and prejudice undermine community cohesion and must be confronted.
- Partnerships with parents, Governors and the wider community are essential to promote equality, diversity and community cohesion.

The health, well-being and cohesion of our local community are important to us. By valuing and championing diversity, we lead the way in good practice and set an example for others to join us. We wish to create an environment where everyone is respected and treated equally.

Our strategic aims and objectives

5. Engagement and Extended Services

We work to provide means for children, young people, their friends and families to interact with people from different backgrounds and build positive relations, including: links with different schools and communities; the provision of extended services; and opportunities for pupils, families and the wider community to take part in activities and receive services which build positive interaction and achievement for all groups.
