

The Colours of Autumn

**Scarlett as leaves drifting off trees to the crunchy ground,
beautiful berries attracting birds to come and snack on them,
rosy apples growing on trees,
scarlett is a colour of autumn.**

Oliver Ward

**Orange as a pumpkin enormous and round,
leaves slowly and gently falling down,
fireworks shooting up into the sky,
orange is a colour of autumn**

Grace Latham

**Orange as a huge pumpkin peacefully resting on a golden hay bed,
a miraculous sun setting quietly over the roof tops,
leaves falling off trees onto the crispy bed below,
orange is a colour of autumn.**
