

The Colours of Autumn

**Brown as a conker in a protective prickly shell,
nuts and acorns stored away in a hurry by hungry
squirrels,
dirty potatoes getting gathered for the harvest,
brown is a colour of autumn.**

**Purple damsons picked from laden trees,
sour blackberries staining your fingertips,
round plums hanging heavily from trees,
purple is a colour of autumn.**

Charlotte Edwards

**Red as a scarlet leaf falling gently to the ground,
apples dropping like boulders down to the earth,
the sun coming up over the horizon,
red is a colour of autumn**

**Orange as a blazing fire,
huge pumpkins growing on a tickly bed of hay,
tasty carrots growing in the soil,
orange is a colour of autumn.**

Matthew Freeman
